You have remained in right site to start getting this info. acquire the birth control and islam you and your spouse mwlusa belong to that we manage to pay for here and check out the link.

You could purchase guide birth control and islam you and your spouse mwlusa or acquire it as soon as feasible. You could quickly download this birth control and islam you and your spouse mwlusa after getting deal. So, later you require the book swiftly, you can straight get it. Its consequently entirely easy and hence fats, isnt it? You have to favor to in this reveal

The Beginning of Human Life - Frauke Beller 2013-03-09
Progress in biomedical science has called for an international discussion of the medical, ethical, and legal problems that confront physicians, medical researchers, infertile couples, pregnant women, and parents of premature or disabled infants. In addition, the unprecedented technological developments in obstetrical, perinatal, and neonatal

medicine in recent years have indicated a need for an international forum for interdisciplinary dialogue regarding the definition of early human life, the neurological development of early human life, the value of early human life, the obligations for its protection and prolongation, and the limits to these obligations.

Birth Control & Abortion in Islam - Muhammad ibn Adam

al-Kawthari 2006-05-01
Birth control, or family planning through contraception, has become a common practice in society. Many new methods of permanent and temporary contraception have become widespread. Consequently, Muslims have also increasingly begun adopting the various means of limiting or spacing out procreation. This no doubt has a deep influence on the very core of our society and thus raises many ethical and religious questions, particularly surrounding abortion. *Birth Control & Abortion in Islam* systematically and concisely presents the relevant rules and regulations of Islamic law on these issues. The discussions are based entirely on the Holy Qur'an, Sunna, and the formal legal rulings propounded by the jurists of the four major Sunni schools of Islamic law. After learning of the significance of the topic through the author's simple writing style, the reader is guided through the Islamic teachings on the various forms

of birth control and abortion with unequivocal conclusiveness. Short and to the point, it contains all the essentials one needs to know about the subject.

Contemporary Bioethics
Mohammed Ali Al-Bar
2015-05-27

This book discusses the common principles of morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al-'aql). Biomedical topics are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice - the maqa' sid - which include:

Preservation of Faith,
Preservation of Life,
Preservation of Mind (intellect
and reason), Preservation of
Progeny (al-nasl) and
Preservation of Property.
Lastly, the third part of the
book discusses selected topical
issues, including abortion,
assisted reproduction devices,
genetics, organ
transplantation, brain death
and end-of-life aspects. For
each topic, the current medical
evidence is followed by a
detailed discussion of the
ethical issues involved.

Islamic Marriage Handbook
Syed Athar Syed Athar Husain
S.H. Rizvi 2017-10-07

This book is compiled for those
intending to marry in the near
future or the newly married
people.

Coming Back The Tears Annie
Mitchell 2013-09-16

This is true story about real
people is set in Edinburgh City
and Dundee, where a petite
Scottish Lassie called Rosie
Gilmour, mother to Finlay
Sinclair, receives news of the
death of her son - who
tragically has taken his own life

by hanging. Rosie pretends her
son is still alive by talking to
him, for that takes away the
unbearable pain of her loss.
But once she begins to face up
to the fact that Finlay is not
coming back, her conversations
become more of a challenge
than she can handle. When
memories of her past are
triggered by everyday life
events, they take her mind
back and forth in time - back to
her own childhood days in
1960, when she flirted with the
fairground boys, and to the day
she gave birth to Finlay - "ME
LADDIE". Rosie's Scottish
accent becomes more apparent
whenever her emotions are
heightened and she begins to
recite poetry. She goes on to
reveal doubts about her own
self-worth and how she re-
unites her role as mother - a
role she had denied herself for
seven years prior to Finlay's
death. Rosie learns how to
forgive herself and how to
accept her loss with using
practical coping strategies that
sometimes but not always work
for her. Many voices of
different natures and walks of

life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and

better person than she imagined she could ever be.

Moral Issues in Six Religions - William Owen Cole 1991

Buddhism - Christianity - Hinduism - Islam - Judaism - Sikhism - Arranged marriages.

Planting God - Derek Schoenhoff 2016-09-20

The struggle is real. Sure. But often times we can over-complicate our lives. Planting God inspires us with a simple idea. God reveals Himself to us so we can plant Him into the lives of people around us. In this valuable book, Derek Schoenhoff shares exciting life-stories, asks thoughtful questions and applies Biblical truth. You will cultivate your knowledge of God, energize your ability to communicate with Him, unearth powerful principles for your restoration and wholeness, uncover strategies of the enemy in your life, and simplify your calling and purpose. God has made Himself accessible to everyone, but only you can choose to open yourself up to Him. Whether you have been a

Christian for many years, or are just discovering Him, this book will help you on your journey, so you can be passionately Planting God.

Documenting Transnational Migration - Richard T.

Antoun† 2005-07-30

Most studies on transnational migration either stress assimilation, circulatory migration, or the negative impact of migration. This remarkable study, which covers migrants from one Jordanian village to 17 different countries in Europe, Asia, and North America, emphasizes the resiliency of transnational migrants after long periods of absence, social encapsulation, and stress, and their ability to construct social networks and reinterpret traditions in such a way as to mix the old and the new in a scenario that incorporates both worlds. Focusing on the

humanistic aspects of the migration experience, this book examines questions such as birth control, women's work, retention of tribal law, and the changing attitudes of migrants towards themselves, their families, their home communities, and their nation. It ends with placing transnational migration from Jordan in a cross-cultural perspective by comparing it with similar processes elsewhere, and critically reviews a number of theoretical perspectives that have been used to explain migration.

The Memorable Thoughts of Socrates - Xenophon

2021-01-01

Xenophon gives us an alternative to Plato's accounts of the lessons of Socrates. As you probably know if you are reading this, Socrates left nothing behind by way of written teachings. All we know of the great philosopher's teachings come from the accounts of his students. Xenophon's version (Memorabilia of Socrates) is

stylistically different from Plato's dialogues(e.g. Euthyphro, Apology, Crito, and Phaedo), though Socrates' wisdom and method (questioning) remain consistent.

Rich Johnson's Guide to Trailer Boat Sailing - Rich Johnson 2009-08

trailerable sailboat is the ideal way to explore the country ? wherever there is water. To make the most of this exciting lifestyle, owners of trailerable sailboats need three things ? an understanding of the boat and how to use it; knowledge about the tow vehicle and trailer used to transport the boat; and a spirited sense of adventure to live the dream.

#13;#13; This book will help you get started. #13;#13; #13;

Say Bismillah - Rabia Gelgi 2016-06-12

say Bismillah is a book about two siblings.Their names are Ahmad and Aisha. They are muslim kids.They love to say Bismillah before eating, playing, drawing, etc. 0-5 age group

Islam - Adeel Zeerak

2012-09-01

One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress.

However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book Islam: A Superior System of Life will help change all that.He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data

obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in Islam: A Superior System of Life include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah “Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice,” says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, Islam: A Superior System of Life is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic

finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

Contraceptive Methods Women Have Ever Used: United States, 1982-2010 - Kimberly Daniels
2013

Finding Joy in the Mourning - Heather J. Ledebor
2016-06-13

When she learns that her baby is no longer living, life takes a sudden, abrupt turn at the end of Heather's third pregnancy. In the painful days to come, a story slowly begins to unfold revealing the refining side of grief. As Heather faithfully journals the complex web of emotion and truth, seeds of hope and healing are planted. Follow along as joy begins to take root and grow as her story transparently unfolds. Over 40 grieving mothers contributed

to a bonus section at the end of the book by offering their candid, uncensored thoughts, feedback and insight to over 20 questions such as: -Is it helpful for you when others bring up your loss, or would you rather avoid discussing it? -Looking back, what do you wish your friends and family would have known that might have helped them to support you better? - What kind of support did you find to be most comforting? - What are some ways that you remember and honor your child as time goes by? -How have you made sure your other children do not get neglected as you take the time to grieve? -What advice can you offer in helping children through their grief of losing a sibling? -How has the loss of your child affected your relationship with your spouse? And many more. Hearing from a variety of voices and perspectives in these areas offers a unique opportunity to glimpse into the hearts and minds of others walking a similar path of grief.

Sacred Rights - Daniel C. Maguire 2003-04-03

This book presents the work of the "Sacred Choices Initiative" of the Religious Consultation on Population, Reproductive Health, and Ethics. The purpose of this Packard and Ford Foundation supported initiative is to attempt to change international discourse on family planning and to rescue this debate from superficial sloganeering by drawing on the moral stores of the world's major and indigenous religions. In many of the world's religions there is a restrictive and pro-natalist view on family planning, and this is one legitimate reading of those religious traditions. As the essays in this volume demonstrate, however, this is not the only legitimate or orthodox view. These authors show that the parameters of orthodoxy are wider and gentler than that, and that the great religious traditions are wiser and more variegated and nuanced than a simple repetition of the most conservative views would suggest. This theme is carried out in essays on each of the

world's major religious traditions, written by scholar practitioners of those faiths.

Black Muslim Religion in the Nation of Islam, 1960-1975 - Edward E. Curtis IV 2009-01-05

Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group. But the movement was also a religious one. Edward E. Curtis IV offers the first comprehensive examination of the rituals, ethics, theologies, and religious narratives of the Nation of Islam, showing how the movement combined elements of Afro-Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith. Considering everything from bean pies to religious cartoons, clothing styles to prayer rituals, Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body, the reorientation of African

American historical consciousness toward the Muslim world, an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad, and the development of a holistic approach to political, religious, and social liberation. Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions.

The God Chair - Caroline Cienki 2016-08-30

Meet Katie Ball. She's ten years old and definitely going through a rough patch. School is stressful and the future of her family's farm is uncertain. But all that changes, when Katie meets Lady Catherine and her rather mysterious chair. That's when she discovers that she's braver than she thought she was, and that with a little friendship and a lot of divine inspiration, real life is just as exciting as any storybook adventure. Originally a Brit, Caroline Cienki has fond memories of vacations spent in the rural North of England with her grandparents, where she learned to love the countryside. She now lives in the US, and calls Texas her home along with her husband, two children and three fun-loving doggies. Among her current passions are home-making, travel and

spiritual formation. The God Chair is her first children's book.

*Islamic Bioethics: Problems and Perspectives*DARIUSCH ATIGHETCHI 2006-12-02

This book presents a critical analysis of the debate in Muslim countries at the religious, legal and political level, sparked by the introduction of new biomedical technologies such as cloning, genetics, organ transplants and in vitro fertilisation. The book draws on law, sociology, anthropology, politics and the history of science. For this reason it will be of interest to scholars and operators in a wide variety of disciplines and fields.

Marriage and Moral Islam Sayyid Muhammad Rizvi 2014-09-18

Useful guide including discussions on Western sexual morality, Islamic sexual morality, Islamic view of marriage and women, beginning of sexual life, rules of marriage and the wedding night, contraceptives abortion, and human reproduction. An

essential guide for every bride and groom.

Baby Bumps - Amy Sprenger
2012-06-29

From the author of the award-winning blog Snarky Mommy comes a book that will make every woman who has ever been pregnant pee with laughter (not that that's hard). Wearing her highest heels and hottest pregnancy jeans, Amy Sprenger marches into her doctor's office, beverage in hand, ready to finally see whether her baby is a boy or a girl. Sure, sure, this appointment is supposed to be about checking the health of the baby, but everyone who's ever been there knows it's really about looking for what lays, or doesn't lay, between the legs. So when the doctor tells her she has an incompetent cervix, Amy becomes immediately offended on behalf of her reproductive organs. Is that just a politically correct way of saying her cervix sucks? Unfortunately, as she's soon to learn, it's a lot more than that. The only way to keep that baby from falling

out on the sidewalk (probably in front of Starbucks) is for her doctor to stitch her cervix closed and for Amy to stay in bed for the next four months. Four months that are carefully detailed in this "memoir." A memoir that, while basically true, has been embellished with Amy's signature brand of humor and hilarity. With more time off than a castoff contestant on "The Bachelor," Amy takes pen to paper and settles in for the ride. But instead of sitting around eating bonbons, she's popping hypertension drugs to stave off preterm labor. And complications? Oh, she's got your complications. She's gut-rehabbing her house. Her mother moves in to care for her. Her husband takes a "mancation" while she's stuck in the hospital. And every time she has a contraction, she's convinced it's The Big One. Living by the adage that laughter is the best medicine, Amy fumbles her way through a series of sometimes serious and usually embarrassing situations. And just to be clear,

using a bedpan qualifies as both serious and embarrassing. "Amy Sprenger's foray into factual fiction is a hilarious (and sometimes poignant) look at high-risk pregnancy from her view at the end of the bed. Sprenger offers a fresh and funny voice that readers will love!" -- New York Times bestselling author Jen Lancaster

Early Islam and the Birth of Capitalism - Benedikt Koehler 2014-06-17

Early Islam and the Birth of Capitalism proposes a strikingly original thesis—that capitalism first emerged in Arabia, not in late medieval Italian city states as is commonly assumed. Early Islam made a seminal but largely unrecognized contribution to the history of economic thought; it is the only religion founded by an entrepreneur. Descending from an elite dynasty of religious, civil, and commercial leaders, Muhammad was a successful businessman before founding Islam. As such, the new religion had much to say on

trade, consumer protection, business ethics, and property. As Islam rapidly spread across the region so did the economic teachings of early Islam, which eventually made their way to Europe. Early Islam and the Birth of Capitalism demonstrates how Islamic institutions and business practices were adopted and adapted in Venice and Genoa. These financial innovations include the invention of the corporation, business management techniques, commercial arithmetic, and monetary reform. There were other Islamic institutions assimilated in Europe: charities, the waqf, inspired trusts, and institutions of higher learning; the madrasas were models for the oldest colleges of Oxford and Cambridge. As such, it can be rightfully said that these essential aspects of capitalist thought all have Islamic roots.

Islam and the Securitisation of Population Policies -

Katrina Riddell 2016-05-06

There has been much scholarly debate on the politically

disruptive capabilities of Islam and the threats to global security posed by or to Muslim states and societies, but within this dialogue there has been little recognition of the role of population policies in security issues. Katrina Riddell's study focuses specifically on Islam and the securitization of population policies and sustainability. Opening with a discussion of contemporary population discourses and their historical foundations, the book examines how population growth has become an international security issue. The author takes the examples of Pakistan and Iran to provide a nuanced understanding of Muslim states' interaction with global debates on sustainability. She also explores how Muslim and non-Muslim states, societies and agents perceive issues of population growth and control. Providing an innovative approach to the pursuit of global sustainability and security, this book presents useful material to scholars whose research focuses on

Islam and the future.

End Feminism; Save the World - Kylie Malchus

2014-09-04

Women are weak. Women are worthless. Women have no power unless politicians or activists grant it to them, unless they can effectively steal man's role, unless they bring others down to hoist themselves up. Those are the lies the modern-day feminist movement has repeated to society, again and again, from dramatically lit stages, supported by beams entitled "Pro-choice Movement," "Free Birth Control," "Abolition of Marriage," "Money before Families," "Gender Sameness," and "Misandry." Our media, politicians, pop culture, and educational system stand atop these stages. What they haven't told us is that women have held power since the beginning of time. Power runs in a woman's blood, her natural, feminine virtues inherently elect to uplift, create, and, through potential to succor the human race, change billions' lives for the best. The question is: will

you conform to modern society's destructive expectations and crumple under feminist control or will you inspire a new movement to elevate fundamental womanhood and save the world?

The World Religions Reader

- Gwilym Beckerlegge 2001

Gathers together material on six of the world's most influential faiths, with readings drawn from a broad range of historical and contemporary sources.

Lean, Agile and Six Sigma Information Technology Management

- Peter K. Ghavami 2008

In the face of growing customer expectations, turbulent economic conditions and increasing IT complexity, ideal execution of IT strategies have never been more important and challenging. This book is about methods of delivering the most value at the lowest cost. It offers a collection of business and technical problem solving techniques to solve many of the recurring IT problems in your

firm. If you are looking to transform your IT organization into a lean, high velocity, high quality and high precision machine that can deliver amazing results with less, this book is for you. Simply apply the Lean, Agile and Six Sigma methods outlined in this book and see the remarkable improvements in customer satisfaction and return on your IT investments. The lessons in this book are for the entire management team, for those who want to achieve perfection with IT, for the senior executive, the IT strategist and the practitioners alike.

Machine Habitus - Massimo Airoidi 2021-12-13

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely

and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

Family Planning in the Legacy of Islam - Abdel-

Rahim Omran 2012-09-10
How has the Islamic view of marriage, family formation and child rearing developed and adapted over the centuries? Is contraception just permitted or actively encouraged? The family is the basic social unit of Islamic society. Even without compelling population pressures, there has been concern with spacing and family planning. This book is the result of a massive research project, gathering fourteen centuries (the seventh to the twentieth) of views on family formation and planning, as expressed by leading Islamic theologians and jurists. The work has been discussed and shaped at each stage by a committee of Islamic experts representing the majority of the Muslim countries. The book provides a much needed source of reference and will be of equal value and interest to professionals in health care and development work and to those working in the academic disciplines of Middle East studies, religion and population studies.

Half Past Midnight - Jeff

Brackett 2011-12-22

The Doomsday Clock gauges the threat of nuclear war. Currently, the clock is set at six minutes before midnight. What happens after the hands reach midnight? Survivalist Leeland Dawcett finds out when he and his family are plunged into the nightmare of their country returned to a third-world state. No phones. No computers. No television. At first, Leeland thinks basic survival is the answer. Until he crosses the path of the wrong guy...

Someone who wants to do more than just survive...

Medicine in the Qur'an and Sunnah - Faruk Adamu Umar
2012-12-19

It is the aim of this book while clarifying doubts and misconceptions, to provide a thorough reappraisal of the intellectual and rich cultural heritage of Islam with regards to the principles and practice of medicine and its representation to the world in the language of today. In nine chapters a range of topics are discussed including: The

Promotion of Medical Education and Health Services; Personal and Environmental Hygiene; Circumcision; Manners of Eating; Social and Mental Health; Curative Medicine; The Provision of Adequate and Potable Water; Magic, Witchcraft, Enchantments and Charms; Euthanasia; Suicide; The Rehabilitation of the Sick and the Needy; The Source of Human Creation; Sex Differentiation and Determination; Healing through Miracles; Magic and Soothsaying; HIV Infection and AIDS; Abortion; Females in Medical Practice; and The Challenges of Modern Medicine to Muslims.

History of the Nation of Islam

Elijah Muhammad 2008-11-06

This book is an interview of Elijah Muhammad explaining his initial encounter with his teacher, Master Fard Muhammad and how his messengership came about. The subjects discussed are Master Fard Muhammad's whereabouts, the races and what makes a devil and satan.

He answers questions dealing the concept of divine and how ideas are perfected. More basic subjects include Malcolm X, Noble Drew Ali, C. Eric Lincoln, Udom, and a comprehensive range of information.

From Marriage to Parenthood - Abbas and Shaheen Mirali
2015-11-04

This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization (www.shia.es) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi`a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets

often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! In addition, For a complete list of our published books please refer to our website (www.shia.es) or send us an email to info@shia.es
World Population Policies 2003 - 2004

This publication reviews key aspects of national population policies for the 194 UN member states and non-member states (for which data are available) for the years 1976, 1986, 1996 and 2003; and contains detailed country profile data relating to population size, growth and age structure, fertility and family planning, health and mortality, international migration and spatial distribution. Key findings of the 2003 survey include that for the world's less developed

countries the most significant population issues relate to high mortality (particularly infant, child and maternal mortality rates and HIV/AIDS), followed by high rates of fertility and population growth and large working-age populations. In contrast, for developed countries the most significant demographic issues relate to low fertility (particularly population ageing and a falling working-age population).

Signing with a Heavy Hand and Heart, Love Mommy -

Sondra Torres 2013-03-13

Words from Ms. Torres: "I take my FAS and turn it in to a teaching tool to help others learn what I go through every day of my life." "If one person listens to what I have to say, then I have done my job. This is what I was born to do. I have won many awards for my work. The awards I've won have been great, but my biggest award is knowing that my message is being delivered and knowing that I might be helping so many people and unborn babies. . If I can prevent one more child from this awful

syndrome I will be happy. My ultimate goal is to get the word out there that FAS is 100% preventable. I want everyone to know about the effects of alcohol on the fetus. My advice, my plea, is that you PLEASE, PLEASE do not drink while you are pregnant, even if you plan on giving your baby up for adoption. Let your baby fulfil his or her dreams and live a normal life. For all the fathers to be, you play an important role in this too. You must be encouraging and supportive. Staying away from alcohol yourself would be helpful."

What others are saying: Thank you for sending your book to me. I read it all, and I wanted to cry. What a wonderful sacrifice you and your family took on. It is wonderful what you have done and how Chanel has grown and turned out to be a wonderful young lady. You are certainly a very special person blessed by God from the beginning. I love you very much. Aunt Gloria "Ms. Torres is a true light in a world that needs more education on Fetal Alcohol Syndrome and its

effects on unborn children. She has opened doors that will never be shut. She has just begun to educate the nation on Fetal Alcohol Syndrome."

Deborah Thornton, SEDNET Project Mangement "Ms. Torres is the epitome of self-advocacy and embodies strength, resilience, and determination. She is courageous and tireless in her quest to educate others regarding FAS; and is compassionate and determined in her mission to empower and advocate for other young adults with disabilities."

Barbara Shannon, School Psychologist Last night, I received a copy of Signing with a heavy hand and heart, Love Mommy: A journey through fetal alcohol syndrome by Mrs Sondra A Torres and Miss Chanel E Torres from Ms. Torres. I opened it and couldn't put it down until I was finished. This story of a young woman living with the effects of fetal alcohol syndrome (a birth defect that is 100% preventable-all pregnant women need to do is not drink when pregnant) is moving,

sometimes funny and always inspirational. I quickly grew to care about Chanel and her adoptive family. Ms. Torres creates a vivid picture of what it is like to live with and care for children with special needs. In relatively few words, Torres brings her family to life-its struggles and its joys. The feelings of love and joy are powerfully conveyed while not minimizing the challenges presented in raising a child with FAS. As a teacher and parent I laughed and cried and wished I could meet this brave girl and her loving mother. Torres is compassionate towards all, including birth parents, but my heart breaks for the children who struggle with this disability. It is a daily battle for which there are some effective interventions but no cures. I will say that Ms. Torres left me more hopeful for these children than my experience as a teacher had-her powerful home environment is definitely a plus for Chanel."CHANEL TORRES IS AVAILABLE FOR SPEAKING ENGAGEMENTS TO BOOK THIS SPEAKER FOR

Rural Rides William Cobbett
2020-04-09

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing Rural Rides, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Textual Sources for the Study of Islam - Andrew Rippin 1990-10-15

"[This collection] is distinguished by its wide range and the care which has clearly gone into the selection of texts for inclusion. . . . Attention has

understandably been focused on what might be called the religious aspects of Islam, such as scripture, theology, sects, law, ritual and mysticism, but within those limits the texts chosen are marked by substantially of content, by geographical, chronological and social diversity, and by an intelligent use of less well known authors. . . . An excellent starting point for a systematic and analytical examination of Islam."—G. R. Hawting, Bulletin of the School of Oriental and African Studies
UNKNOWN ENEMIES TO A NATION - Jonathan W . Ledet
2015-05-04

Unknown Enemies to a Nation, because it is all truth , and it is happening in our society.

Brutality , racism, and back stabbing . Enhance your knowledge by the stories and the bold wisdom. "If it's wrong to know who what and where my enemy is I would rather be wrong than right"(Jonathan Wayne Ledet) Author.

The Population Myth S.Y.

Quraishi 2021-02-15

The Population Myth reveals how the right-wing spin to population data has given rise to myths about the 'Muslim rate of growth', often used to stoke majoritarian fears of a demographic skew. The author,

S.Y. Quraishi, uses facts to demolish these, and demonstrates how a planned population is in the interest of all communities. The book delves into the Quran and the Hadith to show how Islam might have been one of the first religions in the world to actually advocate smaller families, which is why several Islamic nations today have population policies in place. This busts the other myth - that Muslims shun family planning on religious grounds. Based on impeccable research, this is an important book from a credible voice about the politicization of demographics in India today.
