**The "Hitchhiker's Guide to the Galaxy" Revisited: Motifs of Science Fiction and Social Criticism** - Christian Erkenbrecher 2011  
This book is a survey of typical Science Fiction elements in Douglas Adams's Hitchhiker's Guide to the Galaxy. Christian Erkenbrecher first goes through a short history of Science Fiction and identifies certain motifs of the genre in order to correctly place the novel within a useful context. Classical elements of the Science Fiction canon are identified in the novel and scrutinized. It becomes clear that Douglas Adams was fully aware of the SF "burden" and we can see how its elements are used in order to create both humour and criticism. The question of whether social criticism can be applied purposefully in SF will be asked. Other big questions which are posed (and answered?) in Hitchhikers are also taken into consideration: Is there a god? Will the breakdown of communication barriers between races put an end to all wars? Can the advancement of technology prevent us from destroying ourselves? Follow the author on his way through Douglas Adams's "wholly remarkable book" and see how this exceptional hitchhiking playwright and atheist writer enriched the world with his unique prose.

*The Privatization of Space Exploration* Lewis D. Solomon 2011-11-30  
Space was at the center of America's imagination in the 1960s. President John F. Kennedy's visionary statement captured the mood of the day: "We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard." The Apollo mission's success in July 1969 made almost anything seem possible, but the Cold War made space flight the province of governmental agencies in the United States. When the Apollo program ended in 1972, space lost its hold on the public interest, as the great achievements wound down. Entrepreneurs are beginning to pick up the slack—looking for safer, more reliable, and more cost effective ways of exploring space. Entrepreneurial activity may make create a renaissance in human spaceflight. The private sector can energize the quest for space exploration and shape the race for the final frontier. Space entrepreneurs and private sector firms are making significant innovations in space travel. They have plans for future tourism in space and safer shuttles. Solomon details current US and international laws dealing with space use, settlement, and exploration, and offers policy recommendations to facilitate privatization. As private enterprise takes hold, it threatens to change the space landscape forever. Individuals are designing spacecraft, start-up companies are testing prototypes, and reservations are being taken for suborbital space flights. With for-profit enterprises carving out a new realm, it is entirely possible that space will one day be a sea of hotels and/or a repository of resources for big

business. It is important that regulations are in place for this eventuality. These new developments have great importance, huge implications, and urgency for everyone.

*Death Wüits in the Dar* Mark Edward Langley 2020-08-04

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her

two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

**Critical Care Transport** - American Academy of Orthopaedic Surgeons (AAOS), 2009-11-13

Welcome to the new gold standard in critical care transport training. Published in conjunction with the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), Critical Care Transport offers cutting edge content relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, Critical Care Transport thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses,

physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Maryland, Baltimore County (UMBC). It covers both ground and flight transport, and meets the objectives of critical care transport certification exams such as the Certified Flight Paramedic (FP-C) exam administered by the Board for Critical Care Transport Paramedic Certification. Content includes information specific to prehospital critical care transport, such as flight physiology, lab analysis, hemodynamic monitoring, and specialized devices such as the intra-aortic balloon pump. Standard topics such as airway management, trauma, and pharmacology are covered in the context of critical care. Chapters have been authored by leading critical care professionals across the country and represent the most current, state-of-the-art information on management of critical care patients.

**The Enchantment of Sociology** - K. Flanagan 1996-04-03

A unique study of the link between theology and culture from a sociological perspective which addresses the issue of the pursuit of enchantment in the context of postmodernity. Sociology is applied to sociology itself to discern its own domestic response to theological readings of culture. A novel reading of Simmel, Bourdieu and Weber in relation to the Swiss Catholic theologian, Hans Urs von Balthasar, produces a controversial critique of assumptions regarding religious belief in the context of debates on secularisation and postmodernity.

*Terry Pratchett's Discworld 2016 Diary* Terry Pratchett 2015-12-22

One part diary, one part guide to the arcane practices of the funniest creation in modern fantasy, 100% Discworld goodness. With their trademark mix of cultural ephemera, background detail and hilarious one-liners, the Discworld diaries are back. And 2016's diary gives a long-awaited insight into the wit and wisdom of some of the Discworld's most-loved characters, the Witches. Or, as Granny Weatherwax puts it: "I don't hold with diaries. If a witch don't know where she's been or where she should be, no amount of writing it down in long and diverse letters will make any difference. There are some who say that making a note of birthdays and the like will mean you get a lot of presents but I think Gytha is wrong. But suit yourself. Personally I can't be doing with it." ~ Esme Weatherwax
