Save the Miles Kathleen Parker 2010-11-09
With piercing wit and perceptive analysis, Pulitzer Prize-winning writer Kathleen Parker explores how men, maleness, and fatherhood have been under siege in American culture for

decades. She argues that the feminist movement veered off course from its original aim of helping women achieve equality and ended up making enemies of men. The pendulum has swung from the reasonable middle to a place where men have been ridiculed in the public square and the importance of fatherhood has been diminished—all to the detriment of women and children, who ultimately suffer most. Exploring our burgeoning culture of permissiveness and the impact of anti-male attitudes on families and relationships, Kathleen Parker tackles some of the more taboo subjects in today's sexual politics and culture wars that will have America talking about saving the males.

Just Needs a Recharge - Rob Siegel

2018-04-24

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit,

making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.

Terrace VI - Sarah L Johnson 2021-07-07

Welcome to the Sixth Terrace of Dante's tower of Purgatory, serving up sins of gluttony in an eternal banquet. On this carefully curated menu you'll find children stuffing themselves to death, a forgotten saviour gorging on cheeseburgers between bareknuckle rounds on the roadhouse circuit, wealthy socialites revel in an orgiastic alien feast, and the end of days as seen through an apocalyptic carnival of indulgence. Excessive consumption also manifests in darker hungers,

for cruelty, for distraction, or possession. A pair of grifters bent on having it all chase a Scottish leprechaun across the English countryside, a newly deceased addict vies for the attention of Heavenly Higher Ups, degenerate poker players gamble with unforeseen currency, and when an old lady swallows a fly, it's just the beginning... Featuring nine stories of grotesque appetite and glorious excess from a gory gaggle of creators, they say too much of anything is poison, yet these condemned swallow each piece of forbidden fruit while reaching for the next, never to be sated. They can't help themselves. Can you? Stories and art by: Mike Thorn (Darkest Hours, Shelter for the Damned) Robin van Eck (Rough) Eddie Generous (Camp Summit, What Lurks Beneath, Behemoth Rising) Julie Hiner (Final Track) Konn Lavery (Mental Damnation Series, Rutherford Manor Series) Cam Hayden (Futility, Red Flag) Sarah L. Came Again Today - Debra Ordor 2016-04-13
Came Again Today is a fiction novel that consists of twenty-five chapters of Southern hospitality, of hardships, and of slavery as Big Bill and Neva Dawns uncertain journey unfolds from the Karmans plantation to the rugged low ground in Alabama near Leach Creek. Those were horrible days on the Karmans plantation of loved ones disappearing never to be seen again. Big Bill had struggled and schemed for over 15 years to escape the detestable conditions of the plantation, and all the hardships made his quest for freedom even greater. The Karmans were fond of both Neva and Big Bill especially Mrs. Karman who had a difficult time to let them leave the plantation as she was responsible for delaying their freedom for eight years. She held the deed papers for land her late husband had granted the Dawns for their ultimate freedom. As the Dawns departed the Karman plantation, they vowed never to return. As they traveled, they reflected back on their experiences as children on the plantation, how they became a couple, the desire for a family, and having their own home on their land. Neva was barren for fifteen years when departing the Karman plantation, but Big Bill believed they would still have the opportunity to have children under less stringent conditions as free people. Their journey becomes temporarily interrupted and intertwined with circumstances surrounding the Stanley family. The Stanleys were one of the elite families in Jefferson County. The Stanley family drama focused upon their two twin daughters, Molly and Lolly. The midwife, Odessa, had a daughter who became impregnated by Mr. Stanley around the same time as his wife. With the desire for her grandchild to have a better life, Odessa places her grandchild, Molly, as a twin to Mrs. Stanley's daughter, Lolly. Upon discovering the truth, Mrs. Stanley disengages affection to her favorite twin of the family making Molly's life miserable. However, Molly meets a rich well-to-do gentleman, Flango Scott, and they fall head over heels in love with each other before her untimely death on the eve of her sister's wedding. Molly's body was exhumed by Lolly's husband, Patterson, to determine the mystery surrounding Molly's death since she was a young individual without any medical concerns. Finally

the Dawns reached Leach Creek, and Big Bill built his cabin from trees he cut from his own land. While cutting through bushes, he cut through a clearance and there across the creek on a slight hill was the schoolhouse created from the summerhouse that Scott was planning to prepare for his beloved Molly. The school was built to educate all underprivileged children. After fifteen painful long years of being barren, Neva's wildest dream came true, discovering she was with child. The Dawns welcomed the opportunity to have their children to attend that school someday.
