[Along Amsterdams Waterfront](#) - Sabine Lebesque 2006

In New York, it's Williamsburg and the Meatpacking District; in London and Barcelona it's the docklands. Everywhere you look, the light and space created for heavy industry are being repurposed for residential life and services: where once coffee was shipped, coffee is served. A two-decade makeover of the southern bank of Amsterdam's IJ inlet has seen disused shipping wharfs, dockside warehouses and industrial estates replaced by a new urban zone, nestled into the historic city center. Densely stacked apartment blocks, offices and businesses have been joined by cultural institutions, restaurants and schools, in a combination of new and old building stock. This architectural guide is the first full survey of development in areas historically connected with the harbor.

Its texts on housing typologies, infrastructure, gentrification and recreation are accompanied by eight architectural routes documented in photographs, drawings and texts, which take in more than 200 projects.

Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Social History of the American Family - Marilyn J. Coleman 2014-09-02

The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and

culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. The Social History of the American Family is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.

Upon the Gardens of Epicurus - William Temple 2004

Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.

The Fictive and the Imaginary - Wolfgang Iser 1993-03-01

The pioneer of "literary anthropology," Wolfgang Iser presents a wide-ranging and comprehensive exploration of this new field in an attempt to explain the human need for the "particular form of make-believe" known as literature. Ranging from the Renaissance pastoral to Coleridge to Sartre and Beckett, *The Fictive and the Imaginary* is a distinguished work of scholarship from one of Europe's most respected and influential

critics.

The Rescue Artist - Edward Dolnick 2010-11-16

In the predawn hours of a gloomy February day in 1994, two thieves entered the National Gallery in Oslo and made off with one of the world's most famous paintings, Edvard Munch's *Scream*. It was a brazen crime committed while the whole world was watching the opening ceremonies of the Winter Olympics in Lillehammer. Baffled and humiliated, the Norwegian police turned to the one man they believed could help: a half English, half American undercover cop named Charley Hill, the world's greatest art detective. *The Rescue Artist* is a rollicking narrative that carries readers deep inside the art underworld -- and introduces them to a large and colorful cast of titled aristocrats, intrepid investigators, and thick-necked thugs. But most compelling of all is Charley Hill himself, a complicated mix of brilliance, foolhardiness, and charm whose hunt for a purloined treasure would either cap an illustrious career or be the fiasco that would haunt him forever.

Metallica: Nothing Else Matters The Graphic Novel - Jim McCarthy 2014-04-14

By far the most successful of thrash metal's original big four, incredibly Metallica have now been performing for well over 20 years. Beginning with their initial underground success, *The Metallica Graphic Novel* takes in all the highs (the amazing commercial success of *The Black Album*, the nine Grammys, the over 100 million albums sold worldwide), the tragic lows (Cliff Burton's death in a bus crash, the rehab for alcohol and substance abuse) and the controversies (the Napster lawsuit). Brian Williamson's stunning artwork and Jim McCarthy's incisive script perfectly capture the rollercoaster tale of Lars Ulrich, James Hetfield, Cliff Burton, Kirk Hammett, Robert Trujillo and the many others who have passed through the Metallica story.

National Thought in Europe - Joseph Theodoor Leerssen 2006

Ranging widely across countries and centuries, National Thought in Europe critically analyzes the growth of nationalism from its beginnings in medieval ethnic prejudice to the romantic era's belief in a national soul. A fertile pan-European exchange of ideas, often rooted in literature, led to a notion of a nation's cultural individuality that transformed the map of Europe. By looking deeply at the cultural contexts of nationalism, Joep Leerssen not only helps readers understand the continent's past, but he also provides a surprising perspective on contemporary European identity politics.

Elements of Chemistry - William Allen Miller 1856

Economic Persuasions - Stephen Gudeman 2009-06-30

As the transition from socialism to a market economy gathered speed in the early 1990s, many people proclaimed the final success of capitalism as a practice and neoliberal economics as its accompanying science. But with the uneven achievements of the "transition"-the deepening problems of "development," persistent unemployment, the widening of the wealth gap, and expressions of resistance-the discipline of economics is no longer seen as a mirror of reality or as a unified science. How should we understand economics and, more broadly, the organization and disorganization of material life? In this book, international scholars from anthropology and economics adopt a rhetorical perspective in order to make sense of material life and the theories about it. Re-examining central problems in the two fields and using ethnographic and historical examples, they explore the intersections between these disciplines, contrast their methods and epistemologies, and show how a rhetorical approach offers a new mode of analysis while drawing on established contributions.

Aging Options (East King County) - Rajiv Nagaich 2013-05-01

Each day in the United States, 10,000 people become eligible to retire. For these individuals, and the thousands of others already retired, retirement issues loom large. Though visions of retirement for most start out as a joyous anticipation of being engaged in activities we did not have time for when working, re-engaging with friends and family, visiting new and exotic places and the like, these visions can be short-lived for many unprepared retirees. The primary reason? An episode with illness (such as a stroke, heart attack, cancer, or a diagnosis of Alzheimers, Parkinsons) can leave the whole family in chaos and render the ill person a huge burden on loved ones. Unplanned illness can lead to many undesirable outcomes, including: A forced and unwelcome move to an institutional care setting; Loss of assets to cover the high cost of care not covered by Medicare and other health insurance; and, A significant burden being placed on loved ones of the ill person. This reality is quite visible to aging Americans who harbor significant anxieties over these issues. For most, this will be the time when we will realize that Medicare does NOT cover long-term care needs in any meaningful fashion. All this leads to the fact that a bout with illness can quickly render traditional retirement planning ineffective in addressing the most critical retirement concerns aging Americans harbor; however, the good news is with proper planning these concerns can be addressed. So what is proper planning? It is coordinated and comprehensive planning around healthcare, housing, financial, and legal issues. It is planning that can help you: Avoid institutional care if that is at all possible; Locate the most appropriate housing alternative if aging at home is not possible Protect your assets not only from probate costs and estate taxes, but from uncovered long-term care and medical costs as well; and, Not become a burden on your loved ones in case of incapacity. The AgingOptions Guide is a primer on these issues and how to develop a plan to have a better retirement than might be possible.

I Have a Dog - Charlotte Lance 2014-05-01

I have a dog. An inconvenient dog. When I wake up, my dog is inconvenient. When I'm getting dressed, my dog is inconvenient. And when I'm making tunnels, my dog is SUPER inconvenient. But sometimes, an inconvenient dog can be big and warm and cuddly. Sometimes, an inconvenient dog can be the most comforting friend in the whole wide world.

Tacky - Rax King 2021-11-02

An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column "Store-Bought Is Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into

an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. Bream Gives Me Hiccups - Jesse Eisenberg 2015-08-31

The wildly inventive debut collection of stories by the Oscar-nominated star of *The Social Network*. "Hilarious . . . It's a hoot" (People, The Best New Books). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the *New Yorker* and two critically acclaimed plays, proves himself "a deeply original comic voice" in these 28 stories" about the funniness, sadness, and strangeness of everyday life and they really made me laugh" (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimagined scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is stunned when one of her ramen packets goes missing ("She didn't have 'one' of my ramens. She had a chicken ramen."); Alexander Graham Bell has teething problems with his invention ("I've been calling Mabel all day, she doesn't pick up! Yes, of course I dialed the right number—2!"); and in the title story, a precocious and privileged nine-year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this "alphabet soup of sketches, riffs, and innovations" (Seattle Times) explores the various insanities of the modern world, "playfully bringing both familiar and wholly original scenarios to life" (Marie Claire).
