The Prophet's Heir Hassan Abbas 2021-02-23
The life and legacy of one of Mohammad's closest confidants and Islam's patron saint: Ali ibn Abi Talib Ali ibn Abi Talib is arguably the single most important spiritual and intellectual authority in Islam after prophet Mohammad. Through his teachings and leadership as fourth caliph, Ali nourished Islam. But Muslims are divided on whether he was supposed to be Mohammad's political successor—and he continues to be a polarizing figure in Islamic history. Hassan Abbas provides a nuanced, compelling portrait of this towering yet divisive figure and the origins of sectarian division within Islam. Abbas reveals how, after Mohammad, Ali assumed the spiritual mantle of Islam to spearhead the movement that the prophet had led. While Ali's teachings about wisdom, justice, and selflessness continue to be

cherished by both Shia and Sunni Muslims, his pluralist ideas have been buried under sectarian agendas and power politics. Today, Abbas argues, Ali's legacy and message stands against that of ISIS, Al-Qaeda, and Taliban.

The Art of Reciting the Qur'an - Kristina Nelson 2014-11-11

For the Muslim faithful, the familiar sound of the Qur'anic recitation is the predominant and most immediate means of contact with the Word of God. Heard day and night, on the street, in taxis, in shops, in mosques, and in homes, the sound of recitation is far more than the pervasive background music of daily life in the Arab world. It is the core of religious devotion, the sanctioning spirit of much cultural and social life, and a valued art form in its own right. Participation in recitation, as reciter or listener, is itself an act of worship, for the sound is basic to a Muslim's sense of religion and invokes a set of meanings transcending the particular occasion. For the most part, Westerners have approached the Qur'an much as scriptural scholars have studied the Bible, as a collection of written texts. The Art of Reciting the Qur'an aims at redirecting that focus toward a deeper understanding of the Qur'an as a fundamentally oral phenomenon. By examining Muslim attitudes toward the Qur'an, the institutions that regulate its recitation, and performer-audience expectations and interaction, Kristina Nelson, a trained Arabist and musicologist, casts new light

on the significance of Qur'anic recitation within the world of Islam. Her landmark work is of importance to all scholars and students of the modern Middle East, as well as ethnomusicologists, anthropologists, linguists, folklorists, and religious scholars.

An Introduction to the Science of Hadith
Suhaib Hasan 2020-06-06

Allah preserved the Sunnah by enabling the Companions and those after them to memorise, write down and pass on the statements of the Messenger Muhammad and the descriptions of his Way, as well as to continue the blessings of practising the Sunnah. Later, as the purity of the knowledge of the Sunnah became threatened, Allah caused the Muslim nation to produce outstanding individuals of incredible memory-skills and analytical expertise, who journeyed

tirelessly to collect hundreds of thousands of narrations and distinguish the true words of precious wisdom of their Messenger from those corrupted by weak memories, from forgeries by unscrupulous liars, and from the statements of the enormous number of 'ulama', the Companions and those who followed their way, who had taught in various centres of learning and helped to transmit the legacy of Muhammad - all of this achieved through precise attention to the words narrated and detailed familiarity with the biographies of the thousands of reporters of Hadith. The methodology of the expert scholars of Hadith in assessing such narrations and sorting out the genuine from the mistaken/fabricated etc., forms the subject-matter of a wealth of material left to us by the muhaddithun (scholars of Hadith, "traditionists"). This short treatise is a humble effort to introduce this extremely wide subject to English readers. A useful supplement is included for the first time to the original treatise further expounding on branches in the Science of Hadith.

The Death of Sacred Texts - Kristina Myrvold
2016-03-09

The Death of Sacred Texts draws attention to a much neglected topic in the study of sacred texts: the religious and ritual attitudes towards texts which have become old and damaged and can no longer be used for reading practices or in religious worship. This book approaches religious texts and scriptures by focusing on their physical properties and the dynamic interactions of devices and habits that lie beneath and within a given text. In the last decades a growing body of research studies has directed attention to the multiple uses and ways people encounter written texts and how they make them alive, even as social actors, in different times and cultures. Considering religious people seem to have all the motives for giving their sacred texts a respectful symbolic treatment, scholars have paid surprisingly little attention to the ritual procedures of disposing and renovating old texts. This book fills this gap, providing empirical data and theoretical analyses of historical and contemporary religious attitudes towards, and practices of text disposals within, seven world religions: Judaism, Islam, Christianity, Hinduism, Buddhism, Jainism and Sikhism. Exploring the cultural and historical variations of rituals for religious scriptures and texts (such as burials, cremations and immersion into rivers) and the underlying beliefs within the religious traditions, this book investigates how these religious practices and stances respond to modernization and globalization processes when new technologies have made it possible to mass-produce and publish religious texts on the Internet.

Better, Not Bitter - Yusef Salaam 2021-05-18
Named a Best Book of 2021 by NPR This inspirational memoir serves as a call to action from prison reform activist Yusef Salaam, of the Exonerated Five, that will inspire us all to turn our stories into tools for change in the pursuit of racial justice. They didn't know who they had. So begins Yusef Salaam telling his story. No one's life is the sum of the worst things that happened to them, and during Yusef Salaam's seven years of wrongful incarceration as one of the Central Park Five, he grew from child to man, and gained a spiritual perspective on life. Yusef learned that we're all "born on purpose, with a

purpose." Despite having confronted the racist heart of America while being "run over by the spiked wheels of injustice," Yusef channeled his energy and pain into something positive, not just for himself but for other marginalized people and communities. Better Not Bitter is the first time that one of the now Exonerated Five is telling his individual story, in his own words. Yusef writes his narrative: growing up Black in central Harlem in the '80s, being raised by a strong, fierce mother and grandmother, his years of incarceration, his reentry, and exoneration. Yusef connects these stories to lessons and principles he learned that gave him the power to survive through the worst of life's experiences. He inspires readers to accept their own path, to understand their own sense of purpose. With his intimate personal insights, Yusef unpacks the systems built and designed for profit and the oppression of Black and Brown people. He inspires readers to channel their fury into action, and through the spiritual, to turn that anger and trauma into a constructive force that lives alongside accountability and mobilizes change. This memoir is an inspiring story that grew out of one of the gravest miscarriages of justice, one that not only speaks to a moment in time or the rage-filled present, but reflects a 400-year history of a nation's inability to be held accountable for its sins. Yusef Salaam's message is vital for our times, a motivating resource for enacting change. Better, Not Bitter has the power to soothe, inspire and transform. It is a galvanizing call to action.

Islamic Perspectives On The Principles Of Biomedical Ethics Mohammed Ghaly

2016-07-19

Islamic Perspectives on the Principles of Biomedical Ethics presents results from a pioneering seminar in 2013 between Muslim religious scholars, biomedical scientists, and Western bioethicists at the research Center for Islamic Legislation & Ethics, Qatar Faculty of Islamic Studies. By examining principle-based bioethics, the contributors to this volume addressed a number of key issues related to the future of the field. Discussion is based around the role of religion in bioethical reasoning, specifically from an Islamic perspective. Also considered is a presentation of the concept of universal principles for bioethics, with a response looking at the possibility (or not) of involving religion. Finally, there is in-depth analysis of how far specific disciplines within the Islamic tradition — such as the higher objectives of Sharia (maqāṣid al-Sharī'ah) and legal maxims (qawā'id fiqhīyah) — can enrich principle-based bioethics.

Why I Am Not a Muslim - Ibn Warraq

2010-09-30

Those who practice the Muslim faith have resisted examinations of their religion. They are extremely guarded about their religion, and what they consider blasphemous acts by skeptical Muslims and non-Muslims alike has only served to pique the world's curiosity. This critical examination reveals an unflattering

picture of the faith and its practitioners.

Nevertheless, it is the truth, something that has either been deliberately concealed by modern scholars or buried in obscure journals accessible only to a select few.

Prison Bound - Vikram Parekh 1999

Abuses by Jail Staff

Key to Salvation & the Lamp of Sorrow Ahmad ibn Muḥammad Ibn 'Aṭā' Allāh 1996

This is the first English translation of Miftah al-falah, a thirteenth century Sufi text, written by Ibn Ata Allah, one of the great masters of the Shadhili Sufi order. It is considered to be one of his most important works because it sets out the principles of actual Sufi mystical practices, shedding light on the sacred invocations, and associated practices, such as the spiritual retreat. Written in a clear, lucid style, it offers a glimpse into the Sufi world of the 7th Islamic century and allows us to see almost at first hand how the novice was guided by the Sufi Shaykh and, above all, the purpose and preparation involved in engaging in the invocation, dhikru'llah. Ibn Ata' Allah sets out to define it, to explain its nature and power, to show its results and to prove that it is part of the Prophet's Sunna, or practice. The author goes to great lengths to point out many Qur'anic verses where dhikru'llah is mentioned and cites many noted authorities.

Shaping School Culture - Terrence E. Deal
2003-02-10

Just as culture is critical to understanding the dynamics behind any thriving community, organization, or business, the daily realities and deep structure of school life hold the key to educational success. Reforms that strive for educational excellence are likely to fail unless they are meaningfully linked to the school's unique culture. In *Shaping School Culture*, Terrence E. Deal and Kent D. Peterson show how leaders can harness the power of school culture to build a lively, cooperative spirit and a sense of school identity. The authors draw from over twenty years of research on school improvement as well as from their own extensive work with school leaders across the country to identify viable new strategies for effective school leadership. They describe the critical elements of culture--the purposes, traditions, norms, and values that guide and glue the community together--and show how a positive culture can

make school reforms work. Deal and Peterson also explore the harmful characteristics of toxic cultures and suggest antidotes to negativity on the part of teachers, students, principals, or parents. Using real-life cases from their own research, Deal and Peterson provide concrete, detailed illustrations of exemplary practice in different school cultures. They reveal the key symbolic roles that leaders play in school change and identify the specific skills needed to change school culture successfully. *Shaping School Culture* provides an action blueprint for school leaders committed to transforming their schools for success.
