The Zionist Plan for the Middle East - Oded Yinon 1982

Antisemitism Deborah E. Lipstadt 2019-01-29
2019 NATIONAL JEWISH BOOK AWARD WINNER—Jewish Education and Identity Award The award-winning author of *The Eichmann Trial and Denial: Holocaust History on Trial* gives us a penetrating and provocative analysis of the hate that will not die, focusing

incarnations on both the political right and left: from white supremacist demonstrators in Charlottesville, Virginia, to mainstream enablers of antisemitism such as Donald Trump and Jeremy Corbyn, to a gay pride march in Chicago that expelled a group of women for carrying a Star of David banner. Over the last decade there has been a noticeable

uptick in antisemitic rhetoric and incidents by left-wing groups targeting Jewish students and Jewish organizations on American college campuses. And the reemergence of the white nationalist movement in America, complete with Nazi slogans and imagery, has been reminiscent of the horrific fascist displays of the 1930s. Throughout Europe, Jews have been attacked by terrorists, and some have been murdered. Where is all this hatred coming from? Is there any significant difference between left-wing and right-wing antisemitism? What role has the anti-Zionist movement played? And what can be done to combat the latest manifestations of an ancient hatred? In a series of letters to an imagined college student and imagined colleague, both of whom are perplexed by this resurgence, acclaimed historian Deborah Lipstadt gives us her own superbly reasoned, brilliantly argued, and certain to be controversial responses to these troubling questions.

Language and the Market Society - Gerlinde Mautner 2010-03-28

In education, politics and religion, there are strong indications that discourse is becoming marketized. Around the world, government ministries have re-defined themselves as "service providers," universities draw up "market-driven" curricula, job seekers are asked to "package themselves" more effectively, and there are advertising agencies specializing in "the Christian marketplace." And it is not only word choice that is effected; higher-level linguistic patterns, such as genres and discursive practices (such as the text and talk connected with performance measurement and public relations), are also drawn into the orbit of market forces. Through an intricate dialectic, such patterns of linguistic choices, in turn, reinforce the social structures that shape them, further consolidating the marketization process. In a related development, language within

the business domain itself is increasingly shaped by strategic planning and control, for example in branding, message design, and the promulgation of management buzzwords. Marketization thus emerges as a globally unfolding process in which language holds a key position as both cause and effect, and as both subject and object. The book examines these phenomena from a linguistic and critical perspective, drawing on critical discourse analysis, sociological treatises of market society, and critical management studies.
