The Cambridge History of War: Volume 4, War and the Modern World currently viewing the Teaching Writing: Structure and Style video course."--Amazon

Roger Chickering 2012-09-27
Volume IV of The Cambridge History of War offers a definitive new account of war in the most destructive period in human history. Opening with the massive conflicts that erupted in the mid nineteenth century in the US, Asia and Europe, leading historians trace the global evolution of warfare through 'the age of mass', 'the age of machine' and 'the age of management'. They explore how industrialization and nationalism fostered vast armies whilst the emergence of mobile warfare and improved communications systems made possible the 'total warfare' of the two World Wars. With military conflict regionalized after 1945 they show how guerrilla and asymmetrical warfare highlighted the limits of the machine and mass as well as the importance of the media in winning 'hearts and minds'. This is a comprehensive guide to every facet of modern war from strategy and operations to its social, cultural, technological and political contexts and legacies.

The Genesis of Science - James Hannam 2011-03-22

The Not-So-Dark Dark Ages What they forgot to teach you in school: People in the Middle Ages did not think the world was flat The Inquisition never executed anyone because of their scientific ideologies It was medieval scientific discoveries, including various methods, that made possible Western civilization's "Scientific Revolution" As a physicist and historian of science James Hannam debunks myths of the Middle Ages in his brilliant book *The Genesis of Science: How the Christian Middle Ages Launched the Scientific Revolution*. Without the medieval scholars, there would be no modern science. Discover the Dark Ages and their inventions, research methods, and what conclusions they actually made about the shape of the world.

Teach with Magic - Kevin Roughton 2021-05

Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in *Galaxy's Edge*, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you'll experience a visit to the park as we share memories and see how the Imagineers make it all work. We'll be guided by Imagineering icon Marty Sklar's *Mickey's 10 Commandments of Theme Park Design* as we turn our classrooms into the most engaging places on Earth!

Spearhead - Adam Makos 2020-05-19

THE NEW YORK TIMES, WALL STREET JOURNAL, LOS ANGELES TIMES, AND USA TODAY BESTSELLER "A band of brothers in an American tank . . . Makos drops the reader back into the Pershing's turret and dials up a battle scene to rival the peak moments of *Fury*." —The Wall Street Journal From the author of the international bestseller *A Higher Call* comes the riveting World War II story of an American tank gunner's journey into the heart of the Third Reich, where he will meet destiny in an iconic armor duel—and forge an enduring bond with his enemy. When Clarence Smoyer is assigned to the gunner's seat of his Sherman tank, his crewmates discover that the gentle giant from Pennsylvania has a hidden talent: He's a natural-born shooter. At first, Clarence and his fellow crews in the legendary 3rd Armored Division—"Spearhead"—thought their tanks were invincible. Then they met the German Panther, with a gun so murderous it could shoot through one Sherman and into the next. Soon a pattern emerged: The lead tank always gets hit. After Clarence sees his friends cut down breaching the West Wall and holding the line in the Battle of the Bulge, he and his crew are given a weapon with the power to avenge their fallen brothers: the Pershing, a state-of-the-art "super tank," one of twenty in the European theater. But with it comes a harrowing new responsibility: Now they will spearhead every attack. That's how Clarence, the corporal from coal country, finds himself leading the U.S. Army into its largest urban battle of the European war, the fight for Cologne, the "Fortress City" of Germany. Battling through the ruins, Clarence will engage the fearsome Panther in a duel immortalized by an army cameraman. And he will square off with Gustav Schaefer, a teenager behind the trigger in a Panzer IV tank, whose crew has been sent on a suicide mission to stop the Americans. As Clarence and Gustav trade fire down a long boulevard, they are taken by surprise by a tragic mistake of war. What happens next will haunt Clarence to the modern day, drawing him back to Cologne to do the unthinkable: to face his enemy, one last time. Praise for *Spearhead* "A detailed, gripping account . . . the remarkable story of two tank crewmen, from opposite sides of the conflict, who endure the grisly nature of tank warfare." —USA Today (four out of four stars) "Strong and dramatic . . . Makos established himself as a meticulous researcher who's equally adept at spinning a good old-fashioned yarn. . . . For a World War II aficionado, it will read like a dream." —Associated Press

The Rise of Magic in Early Medieval Europe - Valerie Irene Jane Flint 2020-03-31

"There are forces better recognized as belonging to human society than repressed or left to waste away or growl about upon its fringes." So writes Valerie Flint in this powerful work on magic in early medieval Europe. Flint shows how many of the more discerning leaders of the early medieval Church decided to promote non-Christian practices originally condemned as magical--rather than repressing them or leaving them to waste away or "growl." These wise leaders actively and enthusiastically incorporated specific kinds of "magic" into the dominant culture not only to appease the contemporary non-Christian opposition but also to enhance Christianity itself.

The History of the Medieval World: From the Conversion of Constantine to the First Crusade - Susan Wise Bauer 2010-01-26

"Chronicles the period between the 4th and 12th centuries, when rulers in Europe, the Mideast and Asia turned to religious reasons to justify political and military action, a time that included the development of

Islam, the crowning of Charlemagne and the rise of the T'ang Dynasty. By the author of *The History of the Ancient World*."

Book of Beasts - Elizabeth Morrison 2019

A celebration of the visual contributions of the bestiary--one of the most popular types of illuminated books during the Middle Ages--and an exploration of its lasting legacy. Brimming with lively animals both real and fantastic, the bestiary was one of the great illuminated manuscript traditions of the Middle Ages. Encompassing imaginary creatures such as the unicorn, siren, and griffin; exotic beasts including the tiger, elephant, and ape; as well as animals native to Europe like the beaver, dog, and hedgehog, the bestiary is a vibrant testimony to the medieval understanding of animals and their role in the world. So iconic were the stories and images of the bestiary that its beasts essentially escaped from the pages, appearing in a wide variety of manuscripts and other objects, including tapestries, ivories, metalwork, and sculpture. With over 270 color illustrations and contributions by twenty-five leading scholars, this gorgeous volume explores the bestiary and its widespread influence on medieval art and culture as well as on modern and contemporary artists like Pablo Picasso and Damien Hirst. Published to accompany an exhibition on view at the J. Paul Getty Museum at the Getty Center May 14 to August 18, 2019.

[Early Medieval Art](#) - Lawrence (Professor Nees, Department of Art History University of Delaware) 2002

The first millennium saw a rich and distinctive artistic tradition form in Europe. While books had long been central to the Christian religious tradition, education, and culture, they now became an important artistic medium, sometimes decorated with brilliant colours and precious metals. Lawrence Nees explores issues of artist patronage, craftsmanship, holy men and women, monasteries, secular courts, and the expressive and educational roles of artistic creation. He discusses early Christian art within the late Roman tradition, and the arts of the newly established kingdoms of northern Europe not as opposites, but as different aspects of a larger historical situation. This approach reveals the onset of an exciting new visual relationship between the church and the populace throughout medieval Europe, restoring a previously marginalized subject to a central status in our artistic and cultural heritage.

A Guide to the Study of Medieval History for Students, Teachers, and Libraries - Louis John Paetow 1917

[Robes and Honor](#) - S. Gordon 2016-04-30

Robes and Honor is a fascinating exploration of the possible common origin and subsequent developments of investiture across medieval Christianity and medieval Islam. The ceremony in all of its cultural variety was much more than the public adoption of a high-value textile as symbol of office; within a culture, robing established a personal link 'from the hand' of the giver - king, pope, head of a sect, ambassador - to the receiver - noble, general, official, nun, or acolyte. This volume challenges current thinking on religious and regional boundaries of 'cultures,' raises semiotic issues about imagined communities, and addresses problems of kingship.

[Living with Disfigurement in Early Medieval Europe](#) - Patricia Skinner 2016-12-21

This book is open access under a CC-BY 4.0 license. This book examines social and medical responses to the disfigured face in early medieval Europe, arguing that the study of head and facial injuries can offer a new contribution to the history of early medieval medicine and culture, as well as exploring the language of violence and social interactions. Despite the prevalence of warfare and conflict in early medieval society, and a veritable industry of medieval historians studying it, there has in fact been very little attention paid to the subject of head wounds and facial damage in the course of war and/or punitive justice. The impact of acquired disfigurement—for the individual, and for her or his family and community—is barely registered, and only recently has there been any attempt to explore the question of how damaged tissue and bone might be treated medically or surgically. In the wake of new work on disability and the emotions in the medieval period, this study documents how acquired disfigurement is recorded across different geographical and chronological contexts in the period.

A History of Medieval Europe R.C. Davis 2013-08-16

R.C. Davis provided the classic account of the European medieval world; equipping generations of undergraduate and 'A' level students with sufficient grasp of the period to debate diverse historical perspectives and reputations. His book has been important grounding for both modernists required to take a course in medieval history, and those who seek to specialise in the medieval period. In updating this classic work to a third edition, the additional author now enables students to see history in action; the diverse viewpoints and important research that has been undertaken since Davis' second edition, and progressed historical understanding. Each of Davis original chapters now concludes with a 'new directions and developments' section by Professor RI Moore, Emeritus of Newcastle University. A key work updated in a method that both enhances subject understanding and sets important research in its wider context. A vital resource, now up-to-date for generations of historians to come.
