A Higher Geometry - Sharelle Byars Moranville 2016-03-22
Anna loves math, and her boyfriend, Mike. Will she have to choose between them? Anna Conway sometimes wishes her relationships would come as easy to her as math does. A natural math talent, Anna is at odds with what's expected of her as a teenager in the 1950s. While Anna aspires to leave her small town for college to study mathematics, her parents want her to follow the more traditional path of getting married and starting a family. Anna's never really thought of dating before, but when she meets Mike, their relationship takes off and goes further than

she'd ever expected. Now it's up to Anna to make her future happen. But how will she choose? In beautiful prose, Sharelle Byars Moranville explores the importance of believing in dreams in order to make a difference. A Higher Geometry is a 2007 Bank Street - Best Children's Book of the Year.

Holt McDougal Mathematics Grade 6 - Jennie M. Bennett 2012

The new Holt McDougal Mathematics for middle school provides complete and comprehensive coverage of the Common Core State Standards with content and standards of mathematical practices documented throughout every lesson. The unique integrated assessment and intervention features, Are You Ready and Ready To Go On, demonstrate if the students have the

prerequisite depth of knowledge to proceed with the chapter content. In order to be a good problem solver, students need a good problem-solving process. The process used in this book is: understand the problem, make a plan, solve, look back. - Publisher.
