English Grammar for International Studies - Piet van der Voort 2019-11-21

English Grammar for International Studies is designed for students taking international programmes in higher vocational education, such as Business and Management Studies, International Marketing, International Finance, Business Administration, International Communication and Media, Finance and Banking, Hotel and Facility, and Tourism. Such programmes often have an international student body and therefore the language of instruction is English. English Grammar for International Studies caters precisely for these programmes since the instruction, examples and exercises are offered in English. Offering grammar instruction based on problem-oriented learning, the grammatical principles in the book are rehearsed in a variety of exercises and assignments using primary source texts, such as

newspaper headlines, advertisements and internet texts. This book is eminently suitable for self-study, because of its step-by-step approach to English grammar, its transparent instruction, wide range of exercises and the possibility to check answers to questions on the accompanying website (www.englishgrammarforinternationalstudies.noordhoff.nl) which also provides a self-assessment test allowing students to monitor their grammar deficiencies.

"The Perfect Spoken English & Phonetics with the Best Concise English Grammar for Learners" - Hener Nayak 2020-07-24

ABOUT THE BOOK:- This book has been compiled concisely and written English to English. This book contains three books such as; 1. A key to the Perfect Spoken English, 2. The Perfect English Phonetics, 3. The Best Concise English Grammar & composition. Addition of three kinds of small books is finally produced as a complete book which is sub titled "A key to the Perfect Spoken English & Phonetics with the best concise English Grammar & Composition for keen learners" mostly needed not only for students of high school and college but also for keen learners. As far as I am concerned that it may be very useful up to college students and for keen learners those who do not know proper English and correct phonetics. I think this kind of book is rarely found in the market. As far

as I know and hope that this kind of book might not have published before. There is no limit of level or age or class and duration for learning it; one who is eager to learn can learn at anywhere/any time/any year by having this book. This book gives you not only fundamental but also how you will be able to speak the perfect English throughout the world. It's the primary key to success. The book has been written with the sole purpose of enlightening & enriching the readers about English grammar & Phonetics with the process of spoken English which will be very useful to all those who go through it; especially to new learners to get some ideas and knowledge in English language which is mostly used in spoken in day today's life. ABOUT THE PERFECT ENGLISH PHONETICS:- Phonetics is the symbols to represent each different speech sounds, their pronunciation & script. The English language is meaningless without the phonetics; so one should know the correct sound of each word; otherwise he won't be able to get what someone speaks or expresses. This kind of book is rarely found in the market for Indian students & keen learners those who really need it. Thus I have collected the phonetics from Oxford Dictionary & different kinds of books to make you easy to get. I hope that it will help us to get what someone wants to say meaningfully. It is also very important to know because there are some words which don't sound but have to be spelt as-tsunami /tsu:'nɑ:mi/ here 't' is silent, bristle /'brɪsl/ here also 't' silent; so in this case one can't come to know all the words without studying phonetics. If one knows the phonetics perfectly then he/she can speak or write in English frankly without fearing about it & everyone gets him that what he/she says. The basic knowledge of phonetics is enough to help us to acquire correct pronunciation. If we speak phonetically; then we may not face problem in writing or speaking in any necessary action. It is the only one language by knowing one can travel all over the world where English is used as a second or a foreign language. ABOUT THE BEST CONCISE ENGLISH GRAMMAR AND COMPOSITION:- This book is written concisely in perfection from Mr.Wren & Martin'S English Grammar Book from fundamental Grammar (root level). You can extend your thoughts and examples from it to get the thorough knowledge. It is up to you whether you grow branches from your root; I mean creativity, extendable thoughts and grasping examples. The more you practice the more you get; beacue we all know that there is saying "Practice makes a man perfect". It is great personal & professional satisfaction brought you by a new compilation. In our country the English language is taught as second language. This book develops communicative skills & elocution. It has been written in brief & concisely so that students can grasp quickly without taking long duration apart from their studies; especially for keen learners who don't get enough time being in their busy life & profession can give less time for learning proper English & Phonetics. I hope & i am sure that you will find English as easy if you really go through it thoroughly & put in practice giving more interest. I am hopeful that this book will be found useful mostly in our Odisha, India and in other places too; especially in India where English is used as a second or foreign language. I have been endeavored to refer writings of several authors in the form of books to bring this book out. By Hener Compiler

A hand book of complete English grammar - Prabir Rai Chaudhuri 2022-08-13

A hand book of complete English grammar - A comprehensive guide- by Prabir Rai Chaudhuri ABOUT THIS BOOK This book is intended as an introductory text for courses in English grammar at secondary and tertiary level. It offers an outline account of the most important and central grammatical constructions and categories in English. I have assumed only minimal prior familiarity with the structure of English: all the grammatical terminology used is systematically explained. The analysis draws on the descriptive and theoretical advances made in modern linguistics, and for this reason the book could be used for an elementary course on English within a linguistics programme. It is, however, intended for a wider audience: for any course aiming to present a descriptive overview of the structure of English. Significant departures from traditional grammar in analysis or terminology are pointed out, normally in footnotes. One distinctive feature of the book is that it discusses the major grammatical categories at both a language-particular and a general level. The language-particular account gives the distinctive grammatical properties of the various categories as they apply to English: it thus provides the criteria for determining whether some word is a noun, verb, adjective, adverb or whatever, whether some verb-form is a past participle, a past tense form, etc., whether some clause is declarative, interrogative, imperative, exclamative - and so on. Analysis at the general level is concerned with what is common to the categories across languages, thus providing criteria for the application of the same terms in the grammars of different languages. Hope this book will remain as a "friend in need" in your daily life whenever you use English language as a communicative vehicle . - Prabir Rai Chaudhuri

Real Grammar - Carl Eldridge 2016-11-16

Real Grammar takes a fresh approach to English grammar. Real Grammar gives you freedom to communicate effectively in English with clarity and confidence. Traditional grammar books tell you what people say. Real Grammar explains why we say it. Learning why will allow you to truly understand English. You will discover the core concepts of English and gain a deeper understanding of how English works. Once you understand the simple connected core concepts of English, you can use them in a variety of situations to express a wide range of ideas. Real Grammar explores English grammar in a logical way, connecting what you learn with what you already know. Real Grammar features:- Simple explanations- Clear diagrams- Real life examples- Meaningful practice Real Grammar as a teaching resource: As teachers, we want our students to use what they learn in class when they communicate in English. Knowing grammatical structures is one thing, but being able to use them in a natural way can prove challenging. The key is to get the student to understand why. This is done by:- Presenting grammar concepts clearly.- Comparing the new grammar concept to similar grammar concepts the student is already aware of. This helps the students understand the similarities and differences, developing their ability to apply grammar in a way that communicates their thoughts clearly.- Expanding into uses in other situations. We present other contexts that a part of speech is used in, guiding the student to reason, come to their own conclusions, and discover why. Real Grammar includes explanations and practice activities that can be taught as grammar lessons or can be easily integrated into other English classes. www.realgrammar.com

One Language, Two Grammars? - Günter Rohdenburg 2009-01-22

It is well known that British and American English differ substantially in their pronunciation and vocabulary - but differences in their grammar have largely been underestimated. This volume focuses on British-American differences in the structure of words and sentences and supports them with computer-aided studies of large text collections. Present-day as well as earlier forms of the two varieties are included in the analyses. This makes it the first book-length treatment of British and American English grammar in contrast, with topics ranging from compound verbs to word order differences and tag questions. The authors explore some of the better-known contrasts, as well as a great variety of innovative themes that have so far received little or no consideration. Bringing together the work of a team of leading scholars in the field, this book will be of interest to those working within the fields of English historical linguistics, language variation and change, and dialectology.

Cognitive English Grammar - Vanessa Leonardi 2012

Mysteries of English Grammar - Andreea S. Calude 2021-09-30

Despite a history of hundreds of years of research analysing aspects of English grammar, there are still open problems which continue to baffle language researchers today. Such 'grammar mysteries' arise for a number of reasons: because the language is changing; because different speakers of the language adhere to distinct norms and thus introduce and maintain variation in the system; because there are differences between the grammar of spoken and written English. This book illuminates some of the complexities of the subject, the areas where new discoveries await and why it matters. Through a series of accessible and engaging case studies on various aspects of grammar, from multiple negation to possession, the authors present grammar as an intellectual challenge. This book brings out into the open questions about language usage to which we still do not have good answers in a bid to make variation overt and to revel in the mystery of the English language. Both aimed at the interested general reader and the beginning student of English language and linguistics, this is a fresh take on grammar.

This is a clearly structured introductory English learning book intended to offer readers an advanced fluency in both spoken and written English. English pronunciations are given in easy way helping the readers to understand the complexities of English pronunciation. - Author, Salim Khan Anmol [Who Said English Grammar Was Boring?](#) - Francis A. Andrew 2017-09-13 The world of education is full of grammar books. For most teachers and students of foreign languages, grammar books are generally dry and dusty and only to be consulted on a reference basis. However, Who Said English Grammar Was Boring is not your conventional grammar book. Its core dynamic is based upon a conversation between the author and an English language instructor colleague. Apart from being an exposition of English grammar, the book also incorporates advice on teaching methodology and practice exercises for students. Apart from focusing on the four key areas of language learning reading, writing, listening, and speaking the book introduces another concept in the form of a practicum, which asks the students to take turns in giving a lesson to their classmates on what they have learned. It is hoped that this book will serve to take the monotony out of grammar learning.
