*Dreams Rekindled (Mesquite Springs Book #2)* Amanda Cabot  
2021-03-02

Though she hopes for a quiet, uncomplicated life for herself, Dorothy Clark wants nothing more than to stir others up. Specifically, she dreams of writing something that will challenge people as much as Harriet Beecher Stowe's Uncle Tom's Cabin seems to have. But in 1850s Mesquite Springs, there are few opportunities for writers--until newspaperman Brandon Holloway arrives, that is. Brandon Holloway has seen the disastrous effects of challenging others and has no intention of repeating that mistake. Instead of following his dreams, he's committed to making a new--and completely uncontroversial--start in the Hill Country. As Dorothy's involvement in the fledgling newspaper grows from convenient to essential, the same change seems to be happening in Brandon's heart. But before romance can bloom, Dorothy and Brandon must work together to discover who's determined to divide the town and destroy Brandon's livelihood. With this second novel in the Mesquite Springs series, bestselling author Amanda Cabot invites you to discover the healing power of truth.

*Violence and Mental Health* Jutta Lindert 2015-02-25

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of ‘undoing violence’ by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

**Many Small Make a Great** - Paul R. Sherman 2009

After fifty years of studying and teaching about the tabernacle and its relationship to the Church, Sherman creates an intense study of the Old Testament tabernacle and reveals God’s blueprint for today’s Church and for today’s Christian. He dissects every single part, relays its

importance and significance, and emphasizes the simple truth that just as it took many parts to make the Old Testament tabernacle complete, each member is important to make a place for God to dwell within and that it takes many, ordinary members to make the Church of Jesus Christ complete.

Pentecostalism and Globalization - Steven M. Studebaker 2010-09-20

In little over a century, the Pentecostal movement has emerged from small bands of revival seekers to become one of the largest Christian groups in the world. Primarily a movement within Western Christianity for much of its brief history, it is increasingly characterized as a global

movement. Pentecostal theology and ministry in a Western context must engage global Pentecostalism and be willing to rethink its traditional patterns of thought and practice in light of the evolving nature of the movement. The essays in this book come mainly from the McMaster Divinity College 2008 Pentecostal Forum: "The Many Faces of Pentecostalism: Pentecostalism and Globalization." The first section outlines the nature of globalization and establishes it as the context for contemporary Pentecostal theology and ministry. The other contributions explore the impact of globalization on traditional areas of Pentecostal theology, such as Spirit baptism and speaking in tongues, and twenty-first-century Pentecostal ministry.

In addition, the book also contains a commentary on the appropriateness of the various models in the context of moves for an international agreement on the topic. This book will be of interest to academics and practitioners, including those involved with databases and other forms of new media.

*Imagined Democracies* - Yaron Ezrahi 2012-10-15

This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that

credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks and balances between alternative political imaginaries of freedom and justice.
