Legal Education as a Subversive Activity - Mark
Duffy 2022-12-23

In an age when everyone aspires to teach critical
thinking skills in the classroom, what does it
mean to be a subversive law teacher? Who or
what might a subversive law teacher seek to
subvert - the authority of the law, the university,
their own authority as teachers, perhaps? Are
law students ripe for subversion, agents of, or
impediments to, subversion? Do they learn to
ask critical questions? Responding to the
provocation in the classic book *Teaching as a
Subversive Activity*, by Postman and
Weingartner, the idea that teaching could, or
even should, be subversive still holds true today,
and its premise is particularly relevant in the
context of legal education. We therefore draw on
this classic book to discuss, in the present
volume, the consideration of research into legal
education as lifetime learning, as creating
meaning, as transformative and as developing
world-changing thinking within the legal
context. The volume offers research into
classroom experiences and theoretical and
historical interrogations of what it means to
teach law subversively. Primarily aimed at legal
educators and doctoral students in law planning
careers as academics, its insights speak directly
to tensions in higher education more broadly.
